

SPN2 – Proyecto de Mi Casa

When is it due?

The written script (what you will say) for your project is due on **Monday, December 9th**.

The video/presentation is due on **Monday, December 16th**.

You are going to create a video or slideshow presentation of your house. In your video/slideshow you will take us on a tour of your home. Explain what each room is and what chore you have to do in each room.

You MUST:

Show us and identify at least **6 different rooms/parts** in the house.

Name at least **8 chores** telling us:

One chore you **SHOULD** do

One chore that you **HAVE TO** do

One chore that you would **PREFER** to do

One chore that you **LIKE** to do

One chore that you **DON'T FEEL LIKE** doing

One chore that you've **ALREADY DONE 1000 TIMES**

One chore that your sibling **NEVER HAS TO DO**

One COMPLAINT about a chore.

EVERYTHING HAS TO BE IN SPANISH!

Bring your finished project to class on a flash drive or a CD. It is, however, preferred that you email it to me (abridges@yoakumisd.net). You may email a google slides link or a whole PPT file.

Do you need to take actual video/pictures of your house?

You can go online to a realtor's website and use pictures/videos from there. However, you MUST give credit where it is due. A sources page must include the website where you borrowed your photo from. You may also link a short goo.gl link for each site under the photos themselves. FYI-Google is NOT a source. It is a search engine.

You don't have a computer or phone to complete your project?

We will be working in the computer lab in class **this week**. You can also come in the mornings.

You want to record the video on your phone?

Make sure you can transfer it to a file that will play on the computer/iPad.
iPhones can connect to my projector, however, no other cell phone devices can.

How do you decide between making the video and just showing pictures from the computer?

If you do the video, you can record your voice and do not have to speak in front of the class.
If you use pictures to create a slideshow, you will have to actually talk while you're presenting to us.
It's easier to take pictures than to make a video, but it's more fun making a video.
It's your decision! ☺

Don't forget:

The written script (what you will say) for your project is due on **Monday, December 9th**.
The video/presentation is due on **Monday, December 16th**.

**THIS PROJECT IS WORTH A TEST GRADE (presentation)
and A QUIZ GRADE (written script). ☺**
